GLOBAL SUMMIT OF LEADERS & SCIENTISTS 2026

ABOUT THE SUMMIT

The Global Summit of Leaders & Scientists (GSLs) is an international executive platform that brings together scientific, academic, executive, economic, investment, and institutional leaders from around the world to build international partnerships and launch initiatives, projects, and institutional entities that support scientific research, innovation, knowledge investment, and sustainable development.

The Summit is not limited to scientific meetings or discussion sessions; rather, it focuses on producing practical outcomes that continue beyond the conclusion of the Summit, strengthening international cooperation and creating sustainable institutional impact.

SUMMIT VISION

To build a leading international platform that brings together leaders and distinguished professionals to launch initiatives, partnerships, and projects that contribute to creating a more innovative and sustainable future.

SUMMIT MISSION

To empower international cooperation among scientific, academic, and executive leaders, transforming knowledge, expertise, and innovation into practical initiatives, programs, and executable projects.

SUMMIT OBJECTIVES

- Strengthen international cooperation among universities, institutions, and experts.
- Support scientific research, innovation, and invention.
- Promote knowledge investment and entrepreneurship.
- Highlight outstanding scientific and innovative projects.
- Establish sustainable international partnerships and alliances.
- Launch new international initiatives and institutional entities.
- Provide an international platform for presenting experiences and achievements.
- Contribute to developing practical solutions to global challenges.

GLOBAL SUMMIT OF LEADERS & SCIENTISTS 2026

WHY PARTICIPATE?

The Summit provides an international platform that enables participants to showcase their expertise, achievements, and projects, establish professional relationships with universities, institutions, and experts from around the world, and contribute to developing practical outcomes that continue beyond the Summit.

Through the Summit, participants can:

- Present an executive working paper.
- Showcase a scientific project or innovation.
- Present a professional or institutional success story.
- Present a book or scientific publication.
- Build international partnerships.
- Contribute to launching new initiatives.
- Participate in developing executive recommendations.
- Contribute to the official outcomes of the Summit.

WHAT DOES THE SUMMIT INCLUDE?

The Global Summit of Leaders & Scientists is structured around three main executive pillars that form the overall framework of its activities.

FIRST: THE GLOBAL SUMMIT CONFERENCE

The Conference serves as the Summit's principal scientific and intellectual platform, bringing together distinguished speakers, experts, and leaders from around the world to present executive papers, discuss practical solutions, and strengthen international cooperation.

It includes:

- Keynote Addresses.
- International Speakers.
- Executive Working Papers.
- Panel Discussions.
- Specialized Discussion Sessions.
- Strategic Leaders Roundtable.
- Announcement of the Final Recommendations.

SECOND: INTERNATIONAL SHOWCASE PLATFORMS

The Summit provides specialized international platforms for presenting scientific and professional achievements to universities, institutions, experts, and potential partners.

These include:

- Scientific Projects.
- Inventions and Innovations.
- Books and Scientific Publications.
- Successful Institutional Experiences.
- Distinguished Initiatives.
- Entrepreneurial Projects.
- Applied Solutions.
- Outstanding Models with Potential for International Collaboration and Expansion.

THIRD: EXECUTIVE OUTCOMES OF THE SUMMIT

The Summit focuses on producing practical outcomes that continue after its conclusion and serve as the foundation for international cooperation in the next stage.

These include:

- Launch of the Global Forum of Leaders & Scientists (GFLS).
- Launch of the Global Council for Knowledge Investment.
- Launch of the Global Congress for Strategic Solutions.
- Official recognition and endorsement of participating scientific and innovation projects.
- Adoption of international initiatives approved by the Summit.
- Issuance of the Summit's executive recommendations.
- Launch of international cooperation and partnership programs.
- Announcement of recognition programs and official accreditations adopted by the organizing body.

GLOBAL SUMMIT OF LEADERS & SCIENTISTS 2026

CONTINUING THE JOURNEY OF ACHIEVEMENTS

Building upon GOIDI's track record in implementing international initiatives and projects, the Global Summit of Leaders & Scientists continues to build on these achievements, further develop them, and expand their scope in order to enhance their sustainability and create a greater international impact.

The Summit showcases a number of international initiatives that have already been launched and implemented, while also introducing new outcomes that represent the next stage of international development and cooperation.

FIRST: SHOWCASING EXISTING INTERNATIONAL INITIATIVES

World Cup of Invention & Scientific Research

One of the international initiatives launched by GOIDI, first organized in 2023 alongside the Tokyo International Conference on African Development (TICAD), in cooperation with the official Japanese authorities and the official Tunisian authorities, under the patronage of the Tunisian Government, and with the participation of diplomatic and international figures.

The Championship aims to support inventors and researchers while highlighting scientific projects and inventions with global impact.

The Solo Number

The Best Individual Record Book for Invention, Scientific Research & Entrepreneurship

An international initiative dedicated to documenting outstanding achievements in scientific research, innovation, invention, and entrepreneurship. It recognizes distinguished individuals by recording their exceptional accomplishments in an international record book, providing lasting global recognition for achievements of outstanding impact.

GLOBAL SUMMIT OF LEADERS & SCIENTISTS 2026

International Exhibition of Invention, Scientific Research & Innovation

A specialized international platform for showcasing inventions, scientific projects, and innovations while connecting them with universities, institutions, partners, and investors, thereby promoting collaboration, knowledge transfer, and transforming ideas into practical opportunities.

Peer-Reviewed Scientific Journals

Presentation of the portfolio of peer-reviewed scientific journals launched by GOIDI across multiple disciplines and officially registered with the United States Copyright Office at the Library of Congress, strengthening the international ecosystem of scientific publishing and academic documentation.

SECOND: INITIATIVES AND ENTITIES LAUNCHED BY THE SUMMIT

These initiatives represent the executive outcomes of the current edition of the Summit and mark the beginning of a new phase of international cooperation and institutional development.

- Launch of the Global Forum of Leaders & Scientists (GFLS).
- Launch of the Global Council for Knowledge Investment.
- Launch of the Global Congress for Strategic Solutions.
- Official recognition and endorsement of participating scientific and innovation projects.
- Adoption of international initiatives approved by the Summit.
- Launch of international cooperation and partnership programs.
- Issuance of the Summit's executive recommendations.

GLOBAL SUMMIT OF LEADERS & SCIENTISTS 2026

Global Forum of Leaders & Scientists (GFLS)

The Forum serves as the executive arm of the Summit, transforming its recommendations and initiatives into sustainable programs, projects, and partnerships through an international collaborative environment that brings together experts, universities, institutions, and leaders from various sectors.

It also serves as the platform for continuous engagement after the Summit, ensuring sustained communication, the development of initiatives, follow-up on implementation, and the strengthening of international cooperation among participants.

Global Council for Knowledge Investment

An international platform that brings together investors, business leaders, inventors, researchers, and owners of knowledge-based projects to promote investment in knowledge and innovation, connect distinguished ideas with funding, development, and international partnership opportunities, and transform them into projects with economic and developmental impact.

Global Congress for Strategic Solutions

One of the international initiatives launched by the Summit and officially announced as part of its executive outcomes. It serves as an international framework for supporting strategic solutions and multidisciplinary cooperation. Its programs and operational mechanisms will be announced during the subsequent implementation phases.

TARGET PARTICIPANTS

The Summit welcomes the participation of leaders, professionals, and institutions that contribute to knowledge, innovation, and sustainable development. These include:

- University Presidents, Vice Presidents, and Deans.
- Faculty Members and Researchers.
- Scientists and Inventors.
- Research and Scientific Centers.
- Universities, Colleges, and Institutes.
- Governmental and Non-Governmental Institutions.
- International and Regional Organizations.
- Business Leaders and Investors.
- Entrepreneurs and Startup Founders.
- Experts and Consultants.
- Professional Associations and Federations.
- Financial and Investment Institutions.
- Executive Leaders and Decision-Makers.
- Organizations Supporting Scientific Research and Innovation.

GLOBAL SUMMIT OF LEADERS & SCIENTISTS 2026

PARTICIPATION OPPORTUNITIES

The Summit offers participants the opportunity to choose the type of participation that best matches their expertise and interests, including:

- Presenting an Executive Working Paper.
- Participating as a Speaker in Summit Sessions.
- Presenting a Scientific Project or Applied Research.
- Showcasing an Invention or Innovation.
- Presenting a Successful Professional or Institutional Experience.
- Presenting a Book or Scientific Publication.
- Participating in International Exhibition Platforms.
- Contributing to International Initiatives and Strategic Partnerships.
- Joining the Global Forum of Leaders & Scientists (GFLS).
- Participating in the Strategic Leaders Roundtable Sessions.

THE SUMMIT JOURNEY

The Summit follows an executive model that connects dialogue, decision-making, and implementation through three integrated stages.

STAGE ONE

Global Summit of Leaders & Scientists (GSLS)

The Summit's primary international platform for dialogue, executive working papers, distinguished experiences, practical solutions, and strategic initiatives.

STAGE TWO

Global Forum of Leaders & Scientists (GFLS)

The executive phase in which the Summit's outcomes are transformed into international initiatives, councils, strategic partnerships, and cooperation programs, ensuring the continuity of collaboration beyond the Summit.

STAGE THREE

Executive Outcomes, Recommendations & Recognition

This stage includes:

- Announcement of the Executive Recommendations.
- Launch of New Summit Outcomes.
- Announcement of the Initiatives and International Entities Approved by the Summit.
- Honoring Distinguished Leaders and Outstanding Personalities.
- Recognition of Outstanding Scientific and Innovation Projects.
- Honoring Researchers and Inventors.
- Closing Ceremony.

GLOBAL SUMMIT OF LEADERS & SCIENTISTS 2026

APPENDIX (1)

PARTICIPATION TRACKS

The Summit includes six main participation tracks, allowing each participant to select the track that best matches their specialization, project, or professional expertise.

1. Leadership & Future Development

Focuses on leadership models, governance, institutional development, public policy, and preparing future leaders.

2. Scientific Research & Innovation

Focuses on executive papers, applied research, scientific initiatives, institutional innovation, and the advancement of scientific research systems.

3. Invention & Technology Transfer

Focuses on inventions, innovations, patents, technological applications, and connecting them with investment and commercialization opportunities.

4. Knowledge Investment & Entrepreneurship

Focuses on the knowledge economy, innovation investment, entrepreneurship, startups, and the commercialization of high-impact projects.

5. Artificial Intelligence & Digital Transformation

Focuses on artificial intelligence applications, digital transformation, data, and emerging technologies across various sectors.

6. International Partnerships & Strategic Solutions

Focuses on building international partnerships and alliances, developing joint initiatives, and providing practical solutions to global challenges.

Cooperation continues beyond the Summit through the **Global Forum of Leaders & Scientists (GFLS)**. Participants who wish to remain engaged will be provided with the Forum Guide and membership procedures.
